### REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: the prior art does not teach or suggest a resin film that is laminated onto a metal sheet, said resin film comprising a melt-mixture of a polyester resin having an intrinsic viscosity of 0.5-2.0 dl/g; an elastomer resin; and a vinyl polymer containing at least 1 wt% of a unit with an ethylene and/or a polar group, said resin film having a structure wherein the elastomer resin is finely dispersed in the polyester resin, wherein at least a portion of the elastomer resin is encapsulated by the vinyl polymer, and wherein each particle of the elastomer resin has a volume no greater than a sphere having a diameter of 1  $\mu\text{m}$ .
2. The closest prior art are USPN 4,659,767 to Dunkle et al. (hereinafter 'Dunkle') and USPN 5,237,004 to Wu et al. (hereinafter 'Wu').

Dunkle discloses a linear, saturated polyester blend for containing a combination of an acrylate-containing core-shell polymer and a copolymer of an alpha-olefin, wherein the core of the core-shell polymer particle is elastomeric and the shell portion of the core-shell polymer particles is a rigid thermoplastic polymer. However, Dunkle does not teach or suggest a resin film comprising the polyester blend that is laminated onto a metal sheet.

Wu teaches a particle composition comprising a matrix polymer (such as PET) and spherical shell/core phase polymeric particles having a vinyl polymer core phase and a polymeric shell phase. However, Wu discloses the particle size of said particles to be between 2 and 15 micrometers (outside the range of the instant claims) and

further fails to teach a resin film laminated onto a metal sheet wherein the resin film contains said particle composition.

3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
